Subject Index

A

Abscess scan 286
Accumulation mechanism 21
Acid mucopolysaccharide 21
Acquired immunodeficiency syndrome 327
Acute liver injury 28
Adrenal scintigraphy 185
Adrenocortical adenoma 185
Alcohol 279
Amiodarone 334
Amphetamine 121
Anatomical landmarking 91
Antibody liver uptake 38
Aortic valve insufficiency 252
Aortic valve replacement 252
Atherosclerosis 160

B

Barium study 142
Biodistribution 305
Blood pool imaging 269
Bone densitometry 3
Bone imaging 10
Bone marrow imaging 148
Bone marrow scintigraphy 38
Bone scan 282, 369, 372
Brain 121
Brain phantom 15

C

Calibration 103
Carbon II 121
Carcinoembryonic antigen (CEA) 91
Cardiac phantom 69
CD_4-specific (T-lymphocyte) antibodies 156
Cerebral blood flow 234, 242
Cerebral infarction 248
Cerebral perfusion 77
Chelating agents 294
Cholangiocarcinoma 372
Cholescintigraphy 134
Colorectal carcinoma 223, 299
Computerized tomography 142
Computers 106
Contrast recovery 15
Coronary artery disease 269, 338
^{57}Co 103
CSF leak 365
Cushing's syndrome 185

D

Deprenyl 121
Dextran 28
Diaschisis 248
Diethylene triamine pentaacetic acid 305
Differentiation of structural from functional disorders 152
Dilated cardiomyopathy 279
Dipyridamole 61
Dosimetry 42, 116
Dual energy X-ray absorptiometry 3
Dual photon absorptiometry 3
Duodenogastric reflux 134

E

E. coli endotoxin 28
ECG gating 257
EDE 212
Effect of albumin 111
Effect of oleic acid 111
Effective dose equivalent 116
Effective liver blood flow 49
Ejection fraction 269
Emission computed tomography 15, 248
Endotoxemia 28
Epidermal naevus syndrome 369
Epididymitis 286
Exercise 61, 252
Experimental ureteric obstruction 230

F

Fibrinogen 160
Fibronectin 160
Fragments 223
Free thyroxine 111

G

Gallbladder emptying 134
Gallium 67 21
Gallium 67 imaging 142
Gastric emptying 130
Gastric function 130
Gastrointestinal tract 142
Gated cardiac blood pool 106
Gravitational effect 320

H

Haemangiomas of bone 369
Hand-held gamma probe 299
Heart 55
Heat-damaged erythrocyte kinetics 49
Hexamethyl-propylene amine oxide 327
Hexamethylproxypropylene amine oxime 34
Hot nodule 179
Hyperthyroidism 179
Hypertrophic cardiomyopathy 264
Hypophosphataemic osteomalacia 369

I

IgG 305
Immunohistochemistry 91
Immunoscintigraphy 91, 156, 216, 294
Indium 305, 327
Indium 111 28, 91, 223, 294
Indium 111 leucocytes 148
Indium 111 leukocyte scan 286
Indium 111 WBC scan 286
Infarct size 69
Infection 305
Inflammation 21
Intercomparison 103
Intrathecal and CSF therapy 42
Iodine 123 metaiodobenzylguanidine 264
Ionization chambers 103
Isoelectric point 305

L

Labelled water 234
Left and right lateral decubitus positions 320
Left ventricular function 310
Leucocyte scan 327
Leucocytes 28
Life sciences 103
Localisation 156
Localized pneumonia 152
Low-density lipoproteins 160

M

Magnetic resonance imaging 83
Methamphetamine 121
Methylisobutyl isonitrile (MIBI) 310
Monoclonal antibodies 42, 223
Monoclonal antibody 91, 216, 294
Monoclonal antigranulocyte antibody 38
Monocytes 160
Mouse-specific antibody 216
Myocardial infarct size 83
Myocardial ischaemia 269
Myocardial perfusion 55, 61, 257
Myocardial perfusion imaging 269, 310
Myocardial scintigraphy 83, 264

N

NCA-95-specific antibody 38
Non-analogue radioimmunoassay 111
Non-Hodgkin's lymphoma 142
Non-ulcerous dyspepsia 134
Nuclear medicine dosimetry 212

O

Obstructive uropathy 230
Osteomyelitis 148

P

Paediatrics 127
Patient dose 212
Perfusion lung scintigraphy 320
Perfusion scintigraphy 152
Permeability indices 21
PET radiation dosimetry 116
Platelets 160
Pneumonitis 334
Porphyrin 160
Positron 234
Positron emission tomography 346
Postural changes 320
Primary amyloidosis 282
Primary degenerative dementia 77
Pulmonary aerosol clearance 334
Pulmonary angiography 315
Pulmonary deposition 282

Subject Index

A

Abscess scan 286
Accumulation mechanism 21
Acid mucopolysaccharide 21
Acquired immunodeficiency syndrome 327
Acute liver injury 28
Adrenal scintigraphy 185
Adrenocortical adenoma 185
Alcohol 279
Amiodarone 334
Amphetamine 121
Anatomical landmarking 91
Antibody liver uptake 38
Aortic valve insufficiency 252
Aortic valve replacement 252
Atherosclerosis 160

B

Barium study 142
Biodistribution 305
Blood pool imaging 269
Bone densitometry 3
Bone imaging 10
Bone marrow imaging 148
Bone marrow scintigraphy 38
Bone scan 282, 369, 372
Brain 121
Brain phantom 15

C

Calibration 103
Carbon II 121
Carcinoembryonic antigen (CEA) 91
Cardiac phantom 69
CD_4-specific (T-lymphocyte) antibodies 156
Cerebral blood flow 234, 242
Cerebral infarction 248
Cerebral perfusion 77
Chelating agents 294
Cholangiocarcinoma 372
Cholescintigraphy 134
Colorectal carcinoma 223, 299
Computerized tomography 142
Computers 106
Contrast recovery 15
Coronary artery disease 269, 338
^{57}Co 103
CSF leak 365
Cushing's syndrome 185

D

Deprenyl 121
Dextran 28
Diaschisis 248
Diethylene triamine pentaacetic acid 305
Differentiation of structural from functional disorders 152
Dilated cardiomyopathy 279
Dipyridamole 61
Dosimetry 42, 116
Dual energy X-ray absorptiometry 3
Dual photon absorptiometry 3
Duodenogastric reflux 134

E

E. coli endotoxin 28
ECG gating 257
EDE 212
Effect of albumin 111
Effect of oleic acid 111
Effective dose equivalent 116
Effective liver blood flow 49
Ejection fraction 269
Emission computed tomography 15, 248
Endotoxemia 28
Epidermal naevus syndrome 369
Epididymitis 286
Exercise 61, 252
Experimental ureteric obstruction 230

F

Fibrinogen 160
Fibronectin 160
Fragments 223
Free thyroxine 111

G

Gallbladder emptying 134
Gallium 67 21
Gallium 67 imaging 142
Gastric emptying 130
Gastric function 130
Gastrointestinal tract 142
Gated cardiac blood pool 106
Gravitational effect 320

H

Haemangiomas of bone 369
Hand-held gamma probe 299
Heart 55
Heat-damaged erythrocyte kinetics 49
Hexamethyl-propylene amine oxide 327
Hexamethylproxypropylene amine oxime 34
Hot nodule 179
Hyperthyroidism 179
Hypertrophic cardiomyopathy 264
Hypophosphataemic osteomalacia 369

I

IgG 305
Immunohistochemistry 91
Immunoscintigraphy 91, 156, 216, 294
Indium 305, 327
Indium 111 28, 91, 223, 294
Indium 111 leucocytes 148
Indium 111 leukocyte scan 286
Indium 111 WBC scan 286
Infarct size 69
Infection 305
Inflammation 21
Intercomparison 103
Intrathecal and CSF therapy 42
Iodine 123 metaiodobenzylguanidine 264
Ionization chambers 103
Isoelectric point 305

L

Labelled water 234
Left and right lateral decubitus positions 320
Left ventricular function 310
Leucocyte scan 327
Leucocytes 28
Life sciences 103
Localisation 156
Localized pneumonia 152
Low-density lipoproteins 160

M

Magnetic resonance imaging 83
Methamphetamine 121
Methylisobutyl isonitrile (MIBI) 310
Monoclonal antibodies 42, 223
Monoclonal antibody 91, 216, 294
Monoclonal antigranulocyte antibody 38
Monocytes 160
Mouse-specific antibody 216
Myocardial infarct size 83
Myocardial ischaemia 269
Myocardial perfusion 55, 61, 257
Myocardial perfusion imaging 269, 310
Myocardial scintigraphy 83, 264

N

NCA-95-specific antibody 38
Non-analogue radioimmunoassay 111
Non-Hodgkin's lymphoma 142
Non-ulcerous dyspepsia 134
Nuclear medicine dosimetry 212

O

Obstructive uropathy 230
Osteomyelitis 148

P

Paediatrics 127
Patient dose 212
Perfusion lung scintigraphy 320
Perfusion scintigraphy 152
Permeability indices 21
PET radiation dosimetry 116
Platelets 160
Pneumonitis 334
Porphyrin 160
Positron 234
Positron emission tomography 346
Postural changes 320
Primary amyloidosis 282
Primary degenerative dementia 77
Pulmonary aerosol clearance 334
Pulmonary angiography 315
Pulmonary deposition 282

Pulmonary embolism 315
Pulmonary hypertension 320
Pulmonary Thallium uptake 338
Pulmonary thallium washout 338
Pulmonary uptake ratio 338

Q

Quality assurance 10
Quality control 103, 106
Quantitative SPET 15

R

Radiochemical purity 34
Radioimmunoguided surgery 299
Radioimmunotherapy 346
Radioiodine 42
Radiolabelled antibodies 346
Radiolabelled antibody 305
Radiolabelled monoclonal antibodies 299
Radionuclide angiography 252
Radionuclide calibrators 103
Radionuclide cisternography 365
Radionuclide diuretic renography 230
Radiopharmaceuticals 127
Receptor imaging agents 346
Red blood cell scan 369
Redistribution 257
Renal function agents 346
Reproducibility 130
Reserpine 121
Respiratory distress syndrome 28
Rheumatoid arthritis 156
ROC analysis 10

S

Scintigraphy 315
Second tracer isocontour technique 91
Semi-automatic quantification 77
Sensitivity 248
Septal wall motion 252
Shock 28
Single photon emission computed tomography (SPET) 91, 310
Sodium iodide 131 94
Software phantoms 106
SPET 69, 242
Spleen blood flow 49
Splenic pooling 49
Stereoisomers 121
Sympathetic nervous system 264

T

Technetium methylene 99m diphosphonate 372
Technetium 99m cyclobutylpropylene amine oxime 242
Technetium 99m diethylene triamine pentaacetic acid 334
Technetium 99m hexamethylpropylene amine oxime leucocytes 148
Technetium 99m sulphur colloid 130
Technetium 99m-labelled antibodies 156
Technetium 99m-labelled perfusion agents 346
99m technetium-hexamethylpropylene amine oxime 77
Thallium 201 diethyldithiocarbamate 248
Thallium 201 (^{201}Tl) 257
Thallium-201 tomography 279
Three-dimensional display 55
Three-dimensional subtraction 55
Thyroid carcinoma 179
Thyroid scintigraphy 179
Thyroid status 111

U

Underestimation 94
Urine chromatography 34
Uterine radiation dose 94

V

Ventricular function 269
